FIRST RESOURCE BANK RELOCATES EXTON BRANCH

EXTON, PA – First Resource Bank (OTCQB: FRSB) is excited to announce the relocation of its Exton Branch. At 3,500 square feet, this branch is more than triple the size of the previous Exton branch. The building includes two drive-up teller windows, a drive-up ATM and a drive-up night drop box. Located at 800 N. Pottstown Pike, and close in proximity to the previous branch, the new location provides greater accessibility from Rt. 100 and is conveniently located next to the Exton Super Wawa.

According to First Resource Bank President and CEO Glenn Marshall, "The relocation of our Exton branch to this beautifully renovated facility will continue to support the needs of our expanding retail customer base." Marshall attributes First Resource's growth to the Bank's focus on friendly, highly personalized service, expertise with small and mid-size business financial services, flexible banking options and a commitment to surrounding neighborhoods and communities. "We are a local, community bank in the truest sense of the word," he notes. "Our customers are our friends and neighbors and we feel a responsibility to make our communities better. It's an approach that's very genuine and it's created success for us."

The opening of the new First Resource Bank Exton branch coincides with the Bank beginning the site work on a new branch in West Chester, with an expected opening of February, 2015. The expansion represents positive progress in the implementation of First Resource Bank's strategic plan for growth in the Chester County area. "We're expanding our footprint in central Chester County in response to the increase in our customer base," notes Marshall. "On both the lending and retail side, in business banking and personal banking, we have seen a steady increase in the number of customers we serve."
